With love,

tim and caitlin

this is our story

We met in high school through mutual friends and instantly hit it off. We quickly became “boyfriend and girlfriend” and continued to stay together through college even though we were several states apart. After we graduated from college, we decided to move in together and begin to tackle life as a single unit. We got married, had two beautiful children and moved to three different states. Through it all, we have found that what drew us together as teenagers continues to be what draws us together today.

While our relationship has always been firmly rooted in being each other’s best friends, it is the eternal trust, honesty, and mutual support that keeps us strong. **Tim loves that Caitlin continues to be our “super mom” and brings a never-ending supply of patience and nurturing that makes our entire family better and Caitlin loves that Tim is confident, keeps us grounded, and makes everyday fun and silly.**

While every life has its unique set of challenges, our ability to challenge each other to be our best selves is what continues to make us stronger.

why we are adopting

Caitlin grew up with a mother who worked at a private adoption agency for over ten years, and during this time Caitlin and her siblings were constantly exposed to the world of adoption. This early experience inspired Caitlin to obtain a degree in social work. She began her career working with foster and adoptive families, and because of these experiences, Caitlin has had a strong desire to either foster or adopt a child.

As a married couple, we were fortunate to have two biological children but always knew that we wanted to have more children. **We both feel that adoption is our next step and a unique opportunity to open our family to another baby and shower them with the love, support, and opportunities that our own babies enjoy.** We feel so grateful that we have a lot of support from our church, family and friends, and we can't wait to complete our family this way!

meet caitlin

I grew up in Connecticut in a great town and in an extremely loving home. I am the oldest of three and have one brother and one sister! My siblings and parents are all very important parts of our family's life today.

I absolutely love being a Mom and watching the joy of life through my children's eyes. I am my kiddo's biggest fan and love to watch and celebrate all their accomplishments. Whether it's taking their first step or scoring their first goal there is no accomplishment too big or too small.

SOME OF MY FAVORITE HOBBIES: *In my spare time I love to workout, read, decorate our home, and spend quality time with friends and family.*

meet tim

I grew up in the same town as Caitlin, and I am the oldest of four siblings. I am extremely close with my brothers and sister and I am grateful to still have the love and support of both of my parents.

I love being a dad because it allows me to be goofy and silly, and there is always someone to laugh at my jokes. I love teaching my children

SOME OF MY FAVORITE HOBBIES: *I am an avid Boston Red Sox fan and love baseball. I enjoy coaching and after college coached local little league and high school baseball teams with some of my childhood friends. I can't wait to coach all of my children and to be involved in all of their activities.*

caitlin in tim's words

“

Caitlin is what makes our house a home. Without the love, sensitivity, compassion, and support that she brings to everyone in the house we would not have the same family that we do today. **She encourages us to dream while keeping us humble and reminds us that the best thing we can do each day is be kind to others.**

meet our kids

Natalie is a sweet, sensitive and smart little girl. She is a great big sister and can't wait to be one again! She enjoys gymnastics, swimming, dance and soccer but would enjoy nothing more than a quiet day in the house playing Uno and reading books as a family. She is a kind friend, helper in her kindergarten class, and loves coming home from school to do homework and continue to learn.

Easton is our family goofball. **He is an energetic, caring, and sensitive boy who is an entertainer at heart. He is always trying to make our family laugh and literally dances his way through life.** Easton enjoys playing baseball, playing with cars, riding his bike, and jumping on the trampoline until his little legs can't take any more. He is also the family's best snuggle buddy and can't end a day without it.

our home

We live in a nice home in a beautiful neighborhood just 15 minutes away from a major city. **We love spending time outside and our normal evenings are spent riding bikes, walking as a family on the multiple walking trails or simply sitting outside while the kids jump on the trampoline.** If we aren't outside, we love playing games as a family, baking cookies, or building forts in the playroom.

We love our house and neighborhood because of the incredible school system, the abundance of parks and fun things to do nearby, as well as the rich culture and diversity that exists all around us.

Caitlin's Family

Caitlin is the oldest of three children and even though she is separated from her siblings across multiple states, she enjoys getting together with them often at both holidays and beach vacations to continue to make new memories. **Her brother and sister both love being “Auntie” and “Uncle Mike” and are a huge part of our children’s lives, they cannot wait to shower their love on another.**
