

Legan + Rebecca

*We are so  
thrilled to  
meet you!*

*Thank you for taking the time to get to know us!*

We have not met yet but we are inspired by the strength and love you have for your child. We are praying for your health, your child's health, and for peace as you make decisions for you both. As you look through our pictures and written words in our profile book, we hope you feel confident in who we are as individuals, as a couple, and our true desire to start our family. We hope this is just the beginning for all of us in this next chapter of life. If you feel we are the right family for you and your child, we would love to foster a relationship with you in the coming days and weeks that might last a lifetime. We would love for your child to grow up knowing how loved and cherished they are by you.

As you navigate this decision, we hope you feel loved, supported, and seen. We know your desire is to make the best decision for yourself and your growing child and we are blown away by your selfless love and bravery as you put the needs of your child first, even though it has to be one of the most difficult decisions you have ever made. We are thankful for you and hope you enjoy reading through our book!

*With love,  
Legan and Becca*

HELLO

## IN BECCA'S WORDS

At a young age I discovered that I had fertility issues that would impact my ability to carry biological children in the future. I was born with MRKH, which is a congenital disorder that affects the female reproductive system. For me, it meant that I was born without a uterus.

From the time we met, Logan and I were able to have open conversations of the impact our fertility issues would have on starting a family in the future. It truly helped us build a strong foundation and work as a team to learn about opportunities to grow our family. We have always looked at the positives and know everything happens for a reason. Our hearts have been led to adopt and we are excited for this chapter in our lives.

Adoption is close to our hearts as we are fortunate to know multiple families that share the positive impact adoption has had on their lives. Logan's mother and her siblings were all adopted when they were infants. We also have cousins and family friends who have expanded their families through adoption. Having the support of our family and being surrounded by the encouraging memories they share of adoption being part of their story, we know it is the right choice for us!

Our motivation to start our family through adoption is to share the love we have and provide our future children with a childhood like we had. We both have fond memories of our childhood and have been surrounded by love and support. We are excited to share our love and our support system with our children.

WHY ADOPTION

## *How it all started*

We met in college when we were introduced by mutual friends whom Becca had known since high school and Logan met through a bass fishing club on campus. The attraction was instant. Our similar interests and friend groups connected us from the start. Spring semester came to an end and we found ourselves chatting every day through the summer.

The next year we spent most of our free time together. We joined each other on weekend trips home from college and cooked meals together in one of our apartments. Our relationship progressed quickly, but as we look back on the time when we met and first fell in love, we are so thankful for the foundation we built on trust, love, and respect.

One year into dating, we took some big steps in our relationship. We moved into our first apartment together and brought home our first dog. Rapala taught us so much about working as a team. The next year, we purchased our first home. After three years of dating, Logan planned a family photo session where he asked Becca to marry him at one of the prettiest locations under a bridge near the water in her hometown. A few short months later, we welcomed our second red lab, Berkley, and planned our dream wedding for May of 2022.

## *Happily Ever After*

Our wedding is the best day of our lives (so far). We got married in a beautiful outdoor ceremony overlooking a lake with the reception in the same location. We had access to our venue for the whole weekend! This allowed us to soak in every moment from rehearsal dinner on Friday evening to the brunch during clean up on Sunday.

The ceremony was late afternoon with Becca walking down beautiful stone stairs to Logan at the altar. Becca's grandpa was our officiant and one of our favorite parts was each of us having an uncle bring us two pieces of rope to tie an actual knot to unify us as one. After our ceremony, we danced the night away and celebrated our love in the best way. After our wedding weekend, we said goodbye to our two fur babies and traveled to Maui. We spent ten amazing days in the sun soaking in time as husband and wife. We explored, ate amazing food, and relaxed on the beach.

OUR BIG DAY

We have been married since May 2022. Our marriage has been built on honesty, respect, and love from the beginning. The saying “when you know you know” did not seem possible until we met each other and everything just felt like it fell into place. One of the best parts of our marriage is the friendship we have built as part of our foundation. We enjoy sharing our hobbies with each other and hanging out with our friends together.

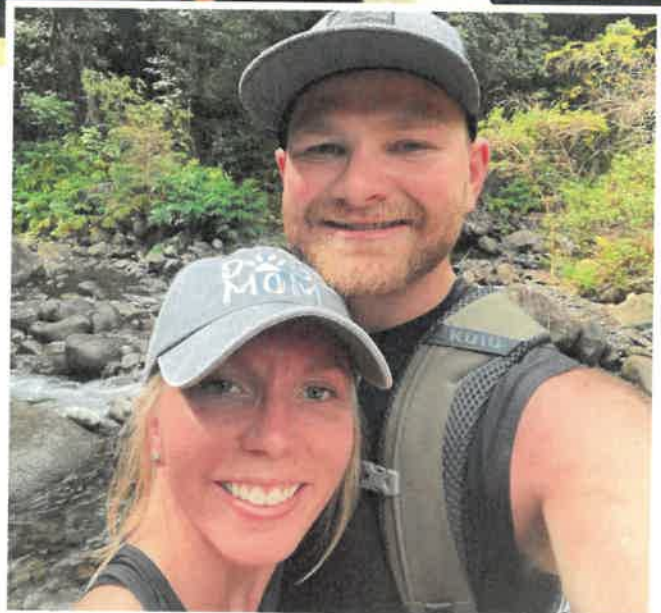

*Another strength of our marriage is keeping our faith at the center. We understand the importance of having God as part of our foundation and everyday life. Our faith also helps us walk through difficult things in life and come out stronger as individuals and as a couple.*

OUR RELATIONSHIP

We love to be active and enjoy the outdoors in our individual hobbies and as a couple. Logan loves to hunt and fish. In the winter, you will find Logan snowmobiling, ice fishing, or snowboarding in his free time. Becca enjoys being on the boat in the summer, walking the dogs or hiking, and coaching soccer. We also love to take a trip to explore. Each year we have a friendly competition to see who can catch the biggest fish, walk the fastest with the dogs, or who is the first to plan a snowmobile trip with friends.

TIME TOGETHER

CARING HARD-WORKING BUSY BODY

## *My Husband. Logan*

Logan is smart, kind, funny, hard-working, loyal, and very handsome. He is laid-back and enjoys making each day an adventure. Logan does not know how to sit still for long. He loves hard and is always helping someone before himself. Logan never backs down from a challenge and navigates solving problems with ease. He knows how to lead and makes everyone around him better. I admire Logan's faith, patience, and steadiness. He can talk to anyone in a room and make you feel heard. Logan loves the outdoors and can out-fish just about anyone. One of the best things is that Logan is truly my best friend. He is so much fun to be around and keeps life interesting. He makes me a better person and I know one of the best things I will do in my life is choosing him every day!

Watching Logan with his nieces, nephews, and other young children in our lives makes me so excited to see him as a father. Logan is the uncle running out to the car to unbuckle the seatbelts or bringing all the fishing poles to the lake in hopes that one of the kids catches a fish! He is very hands-on when any kid is around and is not afraid to get on their level to make a connection. At a family or friend gathering, you will find the kids gravitate toward Logan. It is not uncommon to get a Facetime call from a niece or nephew asking when Uncle Logan is coming to see them or wanting to see a picture of a fish he caught on his phone. Logan may scrunch his nose when his sister-in-law tags him in to change the next dirty diaper, but he does not shy away from making sure needs are met and that fun is always involved. He will continue to show up as the go-to guy when we have children. I believe he will be their number one protector, supporter, and encourager.

MEET LOGAN

Hey!  
I'm Logan

I work in the electrical power industry as a distribution engineer. I help oversee the power grid in the area we live in. The company I work for is large in size with a focus on good morale and values to allow for a healthy and happy work-life balance. I work a hybrid remote schedule that allows me to be flexible in my work hours. I spend about two days in the field and the others days working at home. My employer makes a big effort to show that they are family focused and offers paid paternity leave for adoption.

I like to spend time outdoors including activities like fishing, hunting, hiking, and camping. It's a special bonus when I can bring my wife and dogs around to make it a family event. I love to spend time with my family. Making activities out of our hobbies is something we really enjoy and we look forward to adding a child to make these adventures even more memorable!

### THOUGHTS ON BECOMING A DAD

I look forward to adding a child to our family and sharing my knowledge and passions while watching them grow up. I also look forward to making a difference in our future child's life and helping guide them as they grow. I am excited to buy my child their first fishing pole, help them bait a hook, and watch them catch their first fish. I really am just looking forward to all of the "firsts" that I will get to be a part of.

*My greatest wish for my children is that they will live a happy and easy life. Being able to enjoy childhood as they grow into adults, living the happiest life that I know is possible.*

HONEST RELIABLE DRIVEN

## *My Wife. Rebecca*

Becca is a truly remarkable person. She is sweet, caring, happy, supportive, motivating...the list goes on and on. She is always putting others first and being the best person that she can be. She is super hard working and it shows in her career path. Every employer she has had has fallen in love with her and she has rapidly progressed in her roles. Becca is always there at my highs and right there at my lows. She's never willing to give up and is always there to say "Great job" or "I am so proud of you." She is my rock and motivation to keep going. Becca keeps me in check as I do her, which is the reason we work so well together. Before I walk out the door for work or other activity, she runs through the checklist...wallet, keys, phone, etc. to make sure I have everything I need and then gives me a kiss before I head out. The best part is coming back home to her. We truly are a team and it makes life so fun. She is the whole package and I am lucky to have found her.

Becca is a mom at heart. Out of high school, she nannied two boys from birth. She is caring, kind, and attentive. She knows how to be a mom and a great one at that. These two boys are now nine and seven and we still see them once or twice a month for dinner, or a play date at our house. Becca has great interactions with all kids. She is always right there with our young nieces and nephews, being the person they go to when she is around. Playing tag, hide and go seek, dolls, cars, you name it and she does it. She is going to be a great mother. She is going to allow our child to live and have fun but set certain parameters around faith and boundaries that will shape a child to be a good person with good standards and morals.

MEET REBECCA

I work in the accounting/finance industry. I am currently an accounting manager for a large family business. I work remotely but if I need to go into the office on a rare occasion, it is located about forty minutes from our home. My position and company are very flexible. I can adjust my working hours as needed and have a good work-life balance. Being a family-owned business they have worked hard to build a culture centered around family and understand the importance of family as it relates to work. When we bring a little one home, I will have time off to be at home and bond with our child. When we are both working, we will have family help with childcare and also have plans to hire a nanny.

I love to spend time with family and friends, bake, and keep our home tidy and cozy. My favorite and most requested sweets are chocolate chip cookies! I also enjoy time outdoors by going on a walk or hike, spending time on the lake in our boat, or hosting a BBQ. The best is getting to put all my favorite things together where I get our home ready for company, bake a yummy dessert, and have friends and family over to spend time together and enjoy delicious food.

#### **THOUGHTS ON BECOMING A MOM**

I am so excited to share our life and love with our future children. I look forward to creating our own family traditions. Being able to share our experiences and knowledge and work hard to give them the best life possible will be such a dream. I am looking forward to all the highs and lows that will come with parenting. I know it will not always be easy, but it will be the best thing we do!

*I pray that our children will always know how loved and cherished they are. My hope is that they feel supported and willing to take risks in life to find what makes them happy and successful. My wish is that they will be happy and healthy and find their God-given purpose in life. I hope they will always want to come home and know we will always have our arms wide open.*

## *Home Sweet Home*

Our home is a three bedroom, two bathroom chalet-style home. It is a one and a half story home with two bedrooms and a bathroom upstairs and one bedroom and one bathroom downstairs. We enjoy spending time in our living room! Our home is an open concept kitchen, dining room and living room, which allows us to spend time together as we cook, eat family dinners, and relax while watching a show in the evenings. Our home sits on about two acres tucked back into a wooded area. We have a fenced-in backyard for our dogs to allow them to be outside and enjoy the weather when it is nice. We remodeled the entire home and made it our own after we bought it. We poured our love into the home and built memories in and around it before we were living in it. It is now a clean and cozy place that we are very proud to call home.

WELCOME IN

## *We live in a small community in Michigan.*

It is very supportive and centered around the school system making it a very good and supported educational system. There are a few options including public, Catholic, and Christian schools that extend all the way through high school. The school district has a full sports program, band and choir, cheerleading team, drama club, mechanics programs, and a plethora of student clubs to give students plenty of opportunities to get involved.

In our association we have a golf course, a family restaurant, a playground, a couple of lakes, and an indoor pool/clubhouse. Becca grew up here and we love that our children will grow up in the same area. We love our home and community. We see raising our children here but as our family grows, we may outgrow our current home. We plan to build or find our forever home at that point. The goal for our family is to live life to the fullest, make memories, and provide a safe and loving environment for our children. One of our goals is to provide consistency to the ups and downs of life.

## *What Makes Us Tick*

Our family values faith, love, honesty, fun, and quality time. Family is a significant part of our life and we enjoy our time spent with immediate and extended family. We also understand the importance of our home and the love and care that surrounds all who enter. We are very proud of the family we have built within our home and are so excited to expand our family with a child.

We feel a family with a strong foundation in faith, surrounded by love and honesty, will provide a lot of fun and allow us to experience the best parts of life together and navigate the tough times as a unit. Each value is just as important as the other and we feel it will help us create a family we are proud of!

Our family is extremely excited about the addition of another child to the family. Our child will instantly have the love and support of our families with built-in friends and cousins around their age at family get-togethers centered around activities and food!

*Meet our family*

### LOGAN'S FAMILY

My parents are Ed and Betsy. My brother, Jimmy, and his wife, Bree, have three children. Flynn is five, Lyra is three, and Ridley is one. My sister, Caroline, and her husband, Danny, have a sweet baby boy named Eli. My family has grown quickly in recent years with the addition of our nieces and nephews. My extended family is spread out in a couple of different states but we make it a priority to get together for our major holidays or planning time during the year when we can all get together. There are multiple ways we stay in touch in between our visits together through sharing pictures and FaceTime.

### REBECCA'S FAMILY

My parents are Russ and Raneë. I have one younger sister, Allie. My family is smaller in comparison to Logan's, but we are all very close. My parents live about fifteen minutes from our home, which allows us to spend time weekly through family dinners or assisting on a home project or anything in between. Allie currently lives in a different state which means keeping in touch through phone calls and FaceTime.

## *Meet Rapala + Berkley*

We have two male red labs who are a major part of our family and are also excited to watch our family grow. Both boys are very happy, loving, and full of energy. We are looking forward to seeing them interact and love on our children. They love to play fetch, go on walks, and go swimming. They will never turn down a run next to the four-wheeler or snowmobile and always end with their tongue hanging out as happy as can be. We love watching them around their human cousins as they love to give kisses and hope that they will play tug of war or fetch with them!

OUR BEST BOYS

## Making Memories

Our extended family does a great job of celebrating holidays. It is something we want to continue in our family; certain childhood traditions and creating our own new traditions. We typically have a family get-together on both sides of our family. Fourth of July is a major holiday for us where we have a family vacation and spend time on the lake. It is common for us for either Memorial Day or Labor Day to spend a long weekend somewhere making new memories as a family. We look forward to creating Easter baskets, helping plan Halloween costumes and all the joy that comes with the holidays through the eyes of a child. Aside from the major holidays, we look forward to the little traditions that we will build for our family as well. A homemade cake for birthdays or taking a family day to go snowmobiling each winter, we are excited to bring joy and consistency as we build traditions that will be lasting memories for our family.

TRADITIONS

## Looking Ahead

### **OUR FAITH IS VERY IMPORTANT TO US.**

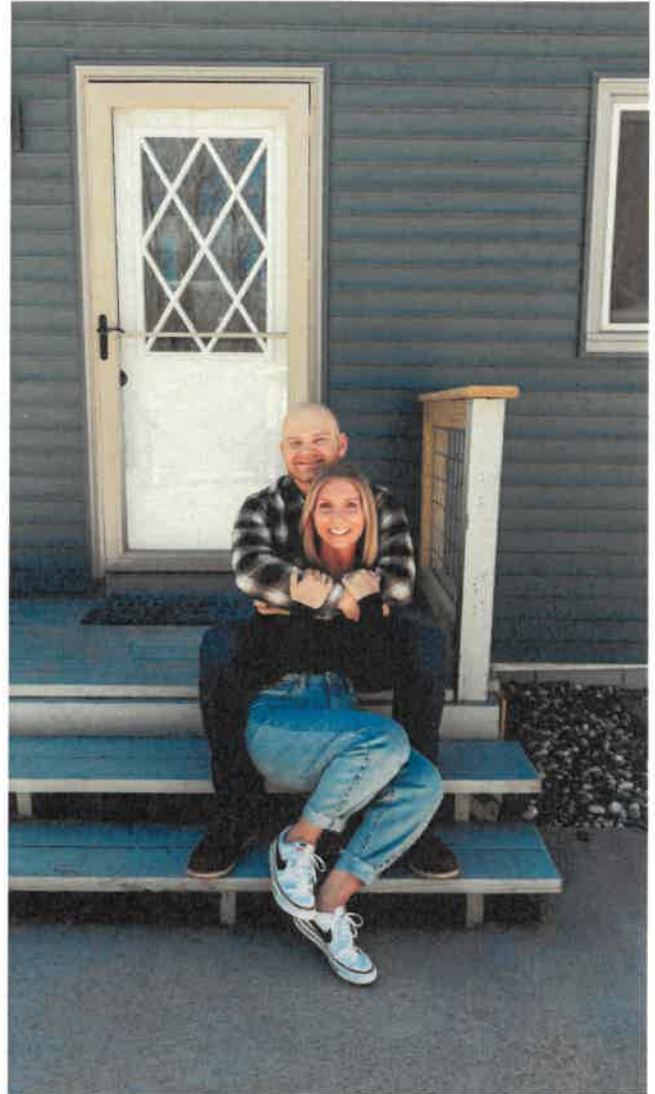

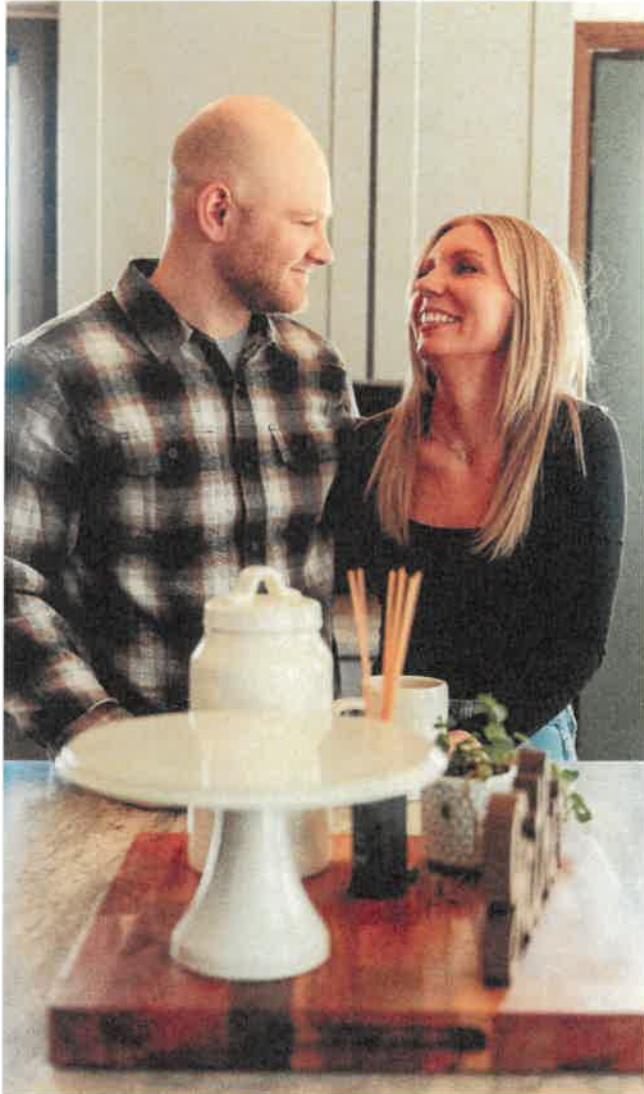

We want our child to understand the importance of and be surrounded by our church community. Our goal for our family is to attend church every Sunday unless we have a planned family experience or trip. We want our children to be involved as they grow older in the youth groups of our church to hear about Jesus and the stories of the Bible in a way that they will understand. Aside from church, we will continue to say a prayer before dinner each night, pray before bedtime, and talk about the stories of the Bible often in conversation, through books and the music we will listen to with our children.

### **WE WOULD LOVE TO CREATE MEMORIES ON FAMILY VACATIONS.**

We would love to create memories on family vacations. We both grew up with family trips and want to continue that with our own family. We see family spring break trips, extended family trips, and even a holiday weekend spent a couple of hours away on a lake to expand our children's view of the world and create memories that will last a lifetime.

Our goal for our family is for our children to have at least one sibling. We want them to have someone to grow up with. Our siblings are some of the people who are the closest to us. We plan to adopt again in the future to provide that for our children.

## *Our Plans for Schooling*

Becca went to a Christian elementary school and we would like to do the same for our child. As they grow, we want to give them opportunities that may lead us to public school with a strong foundation of faith in the early years of their education. Becca also went to the public school in our current community growing up and we feel confident in the teaching and safe environment for our children. We want to provide them opportunities to play sports, drama, or excel in their schooling through early college classes. Schooling for our future children was a major factor in our choice of community on where to settle down and start a family.

We are very proud and feel our college degrees have helped us find success in life. We also know success can be built without a college degree. **We will be there to support our children, work with them to help them find opportunities, and be very proud of the path in life they choose to find success and happiness, no matter what that looks like.**

**EDUCATION**

**We lift you up in prayer and wish you  
peace and confidence as you decide  
what is best for you and your child!**

## *Before You Go*

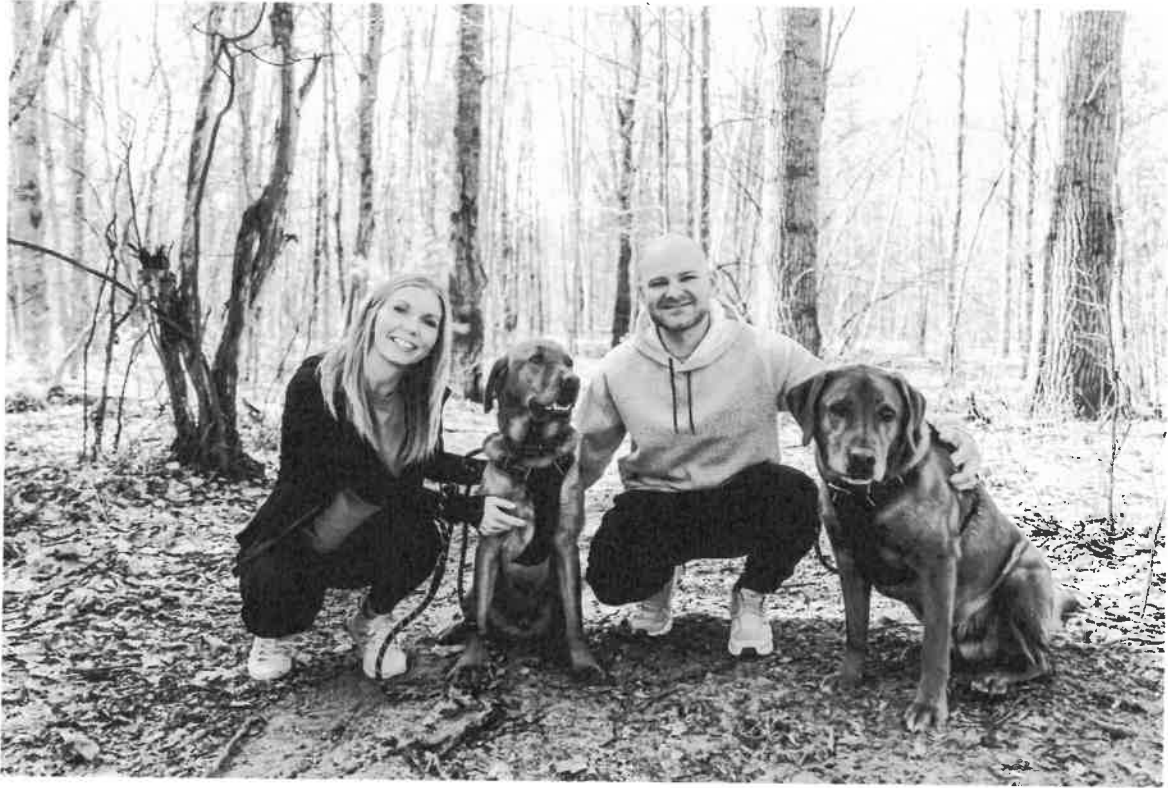

Thank you for the time to read through our profile and get to know us! We hope you feel confident in who we are and our goals for our family. We are looking forward to learning more about you and developing our relationship if it is the right fit.

We are excited to share our child's adoption story with them and know that you will be a significant part of their story. We cannot begin to understand the emotions you are feeling, but we are confident in your strength and love for your child. We look forward to sharing those same thoughts with your child as they grow and can understand. With the amount of pictures we have on our phones of our fur babies, Pal and Berk, we look forward to needing more storage for our children. If it is something you desire, we would love to share updates and photos with you over the years. We would also love to share about you and allow our child to know as they grow, but we want to honor your feelings in this and would love to hear about what level of openness you desire. We always want to make the best decisions we can for our child and will always keep an open mind and heart to whatever that looks like.

*Legan and Becca*

THANK YOU

**YOU ARE LOVED!**
